OBJECTIVE

I am passionate about building a career as a Fullstack Web Developer, specializing in JavaScript, Golang, and Java. My goal is to develop scalable, high-performance web applications while continuously refining my skills and contributing to innovative, impactful projects.

WORK EXPERIENCE

ALADIN TECHNOLOGY

1/2025 - 4/2025

Fullstack Intern (React JS & Spring Boot) - Full time

AladinTech.co

- Contributed to the development of base React components utilizing the Ant Design library.
- Developed a backend filter and implemented full-text search functionality for employee data using Elasticsearch.

ViettelDMP

- Optimized JavaScript queries to improve application performance.
- Debugged and corrected UI issues in front-end templates .

TEKY HOLDINGS 8/2024 - 2/2025

Teacher - Part time

• Taught Frontend Web Development (HTML, CSS, JS, Bootstrap) to Middle School Students.

PHARMACY TECH 7/2024 - 9/2024

Frontend Intern (Next JS) - Part time

Kios Smart

- Built the kiosk's print receipt interface.
- Collected business requirements documents.

EDUCATION

University of Transport and Communications

12/2023 - 6/2024

Information Technology - Current GPA 2.9

Awarded 1st Place in the 2023 Scientific Research Contest at the Faculty of Civil Engineering, UTC, for developing a Common Data Environment (CDE) platform.

SKILLS

Programming Languages	HTML, CSS, JavaScript, TypeScript, Go.
Frameworks	React.js, Next.js, Express.js, Nest.js, Gin.
Database	Oracle SQL, MySQL, PostgreSQL, MongoDB, Redis.

CERTIFICATIONS

HTML, CSS, JavaScript, JavaScript Advanced, React.js, Node.js Issued by F8

2022

PERSONAL PROJECTS

Online Dating Website (Tinder Clone)

(6/2023 - 11/2023)

Link Project	Client: https://github.com/trakongot/client_tinder_clone Server: https://github.com/trakongot/sever_tinder_clone
Description project	 Clone Tinder's interface and core features Profile creation, photo uploading, and profile editing Multi-category search algorithm based on location, interests, gender, and relationship preferences Real-time chat functionality New feature: Real-time voice calling
FeedBack	Scored 10/10 in Web Interface Programming and ASP.NET Programming, earning exemption from the final exam for both courses.
